

DEL BARBER

Del Barber has, over the course of releasing 7 studio albums firmly established himself amongst the elite of Canadian songwriters and storytellers. His songs truly abound with soundscapes inspired by his beloved Prairies coupled with amazing stories brought to life within the songs. He has won or been nominated for several Juno Awards, Western Canadian Music Awards and Canadian Folk Awards and has consistently toured the world playing all over Europe, the US and Canada over the years.

On his last release “Almanac” (2023), the music was featured in the likes of No Depression, Rolling Stone and Holler – not the first time for a couple of those, we might add!
